**417-781-6380 OR 800-641-4296**

On May 22, 2011, a major tornado struck Joplin, Missouri at approximately 5:45pm. This tornado was on the ground for an estimated twenty minutes and affected a three (3) square mile area of land. Every structure, landmark and tree in its path was affected. At the time of the writing of this letter, there are 119 dead and an estimated 1,700 missing.

We are pleased to report that all of our employees and family are safe and alive. Our building suffered some external damage, but it does not appear to be a total loss. Although we do not have power, we are still operating, delivering insulation, picking up newsprint from suppliers and fielding calls. We unfortunately cannot receive email and are not accepting paper drop-offs at this time.

We would like to extend our appreciation to the numerous customers, suppliers, colleagues and friends that have offered their condolences and support. For more information, contact Shan Maitra at 417-540-6694 or [shanmaitra@yahoo.com](mailto:shanmaitra@yahoo.com). You can also periodically check our website for updates.

Sincerely,

FIBERLITE TECHNOLOGIES, INC.
